■ WELCOME TO PLACER COUNTY

I moved here from Ohio in 2019 — after years before that in India. My husband is a pulmonary and critical care physician and we made the leap together: closing his practice, packing everything we knew, and starting over in Loomis, California. The first few months were hard. He moved first. I stayed in Ohio with our children until the school year ended, packing our home alone, saying goodbye to a community we had built over a decade. What I did not expect was how quickly Placer County would feel like home. The oak trees. The community. The neighbors who brought food when we moved in. The schools that became like family. The Saturday morning farmers market. The drive through the Sierra foothills when I needed to remember why we came. I became a Realtor because of this journey — because I wished someone had walked alongside me the way I now walk alongside families every single day. This planner is my gift to you. Use it. Mark it up. And call me when you have questions, need a vendor recommendation, or just want to talk to someone who has been where you are.
